

## DWX – 3000/5000

### DISK DRIVE REPLACEMENT

For the Pertec D3000 series and DEC interface Diablo

The DWX 3000/5000 Removable Disk is a direct replacement for Diablo and Pertec type 14-inch cartridge disk drives with fixed or removable storage capacity of 5 to 20 megabytes, and for Digital RK-05 disk drives. This product utilizes a SyQuest SCSI removable cartridge disk drive, a field proven product with over two-million shipped.

A DWX 3000/5000 will replace one 20 megabyte drive, two 10 megabyte or four 5 megabyte units.

#### Data error rate

Recoverable : Less than one (1) in  $10^{10}$  bits read.

Unrecoverable : Less than one (1) in  $10^{12}$  bits read.

#### Data transportability

Allows sharing of system resources.

#### Unlimited storage

Use of multiple cartridge provides unlimited off-line storage.

#### Data security

Data can be locked away eliminating the inconvenience of removing the entire disk drive. Write protect lever on the disk cartridge.

#### Fast back up and retrieval of archival data

Fast transfer rates to backup and retrieve archival data in a timely manner.

#### Product specifications

##### Power

Voltage : 120 VAC  
220 VAC

##### Physical dimension

Length : 37,6 cm  
Width : 47,5 cm  
Height : 17 cm  
Weight : 20 kg
